PSC APPROVES TERRITORIAL AGREEMENT

JEFFERSON CITY—The Missouri Public Service Commission has approved an electric territorial agreement between Callaway Electric Cooperative and the City of Fulton which establishes the exclusive service territory for Callaway Electric Cooperative for five tracts of land lying outside of, but near, the corporate limits of Fulton in Callaway County.

The agreement does not require the transfer of any facilities or customers and does not involve any change of suppliers to existing customers or members. The agreement will allow for a more orderly future development of electric service to the public, preventing duplication of facilities and services.

Having considered the joint application as well as the PSC Staff recommendation of approval, the Commission concluded the territorial agreement is in the public interest and should be approved.

The Commission's order takes effect on February 25, 2007.
